eFORMz is a powerful, next-generation electronic forms automation solution for formatting, personalizing and delivering ERP application output. eFORMz converts standard print output into attractive, functional documents that can be distributed via print, fax, email, and the web.

There is no need to learn a proprietary design tool or programming language when creating a form. With eFORMz YOU have the power to design forms with the publishing tools you're familiar with. eFORMz integrates seamlessly with MS Word, MS Publisher, Adobe, or OpenOffice. Use eFORMz to design packing lists, shipping labels, invoices, purchase orders, bills of lading, gift certificates, checks, barcodes, and much more!

Utilize eFORMz to go paperless and completely eliminate the cost of printing and postage by emailing forms in full color HTML or PDF formats.

eFORMz supports printing to any PCL or XML compatible printer. The eFORMz Print Manager fully automates the print process allowing users to control when, where and how forms are printed. The Print Manager is seamlessly integrated with Windows, Unix, Linux or iSeries/AS400 spooling environments allowing direct access to print queue properties and document handling options.

Since 1983, Minisoft has been delivering forms automation and document management tools to improve organizational performance and operational efficiencies.

eFORMz Features

- Design forms with popular publishing tools like Microsoft Word, MS Publisher, Adobe, Open Office or Excel.
- Print, email, fax, or archive forms in HTML, XML, Text, CSV or Secure PDF.
- Populate forms directly from spoolfiles and/or corporate databases, including Progress, Oracle, SQL, MySQL, Eloquence, Image, Sybase.
- Accepts XML and EDI data sources as input.
- TIFF image reader, PDF encryption support.
- Extensive library of pre-designed industry specific forms.
- Create “intelligent” forms with built-in conditional logic rules.
- Supports PCL, Postscript, XML and AFPDS printers.
- Support for 1D & 2D barcodes.
- Multi-Byte Character Support (Asian, European, Arabic Languages).
- Virtual File Cabinet - Archiving, Retrieval, Indexing.
- Document Workflow Management.
- Written in JAVA, eFORMz runs on Windows, Linux, HP/UX, AIX, iSeries/AS400, OpenVMS, MPE, Solaris.
