

Press Release:

Minisoft announces a new partnership with Strategic Information Group.

Snohomish, WA - May 15, 2010: Minisoft announced today that it will partner with Strategic Information Group a leading reseller of QAD Enterprise Applications to promote and market the eFORMz and FileX integrated document management solutions to the QAD community.

By using eFORMz, companies with QAD Enterprise Applications can reduce costs by eliminating all pre-printed forms. eFORMz represents a new generation of forms automation software that provides users with the power to quickly and easily create high-quality business documents to address an organizations changing needs. There is no need to learn a proprietary design tool or programming language. With eFORMz you have the power to design your own business forms with the publishing tools you're familiar with. eFORMz integrates seamlessly with Microsoft Word, Word Perfect, OpenOffice, or Excel. QAD users can utilize eFORMz to create Packing Lists (collates), Shipping Labels, 1D/2D Barcodes, Invoices, Purchase Orders, Gift Certificates, Bills of Lading, Checks, NAFTA Forms and much more!

Use the eFORMz "Smart Form Technology" to add conditional "what if" logic to a form. Add graphics, incorporate special comments, seasonal messages, or just change how data is displayed to create customized, specialized forms to enhance your customers' experience.
