Minisoft to Present at Upcoming QAD Midwest User Group Conference

How Inergy Automotive used Minisoft's eFORMz to generate complex forms and reports directly from their QAD system to satisfy the unique requirements of their automotive customers.

SNOHOMISH, Wash. —January 17, 2012—Minisoft Inc., a leading provider of document management solutions, announced today that it would present a customer case study with David Langschied of Inergy Automotive on Tuesday, March 20th, from 10:00 AM to 11:00 AM at the QAD Midwest Users Group Conference.

Minisoft had earlier announced that they would attend the Midwest Users Group Spring 2012 Conference from March 18th through the 20th in Dearborn, Michigan as well as the Southeastern Users Group Spring 2012 Conference from March 11th through March 13th in Charleston, South Carolina.
