eFORMz HIGHLIGHTS

ABOUT eFORMz

Minisoft's eFORMz is a powerful forms and label generation solution for formatting, personalizing and delivering application output. eFORMz takes standard print output from a software application system and transforms it into attractive, functional forms that can be distributed via print, email, or sent to an archive provider.

Customizable
eFORMz is one tool that can be used to solve a wide range of business challenges. Use eFORMz "conditional logic" to develop smart forms that can actually make decisions based on an incoming data or print stream.

Integration
eFORMz integrates with any WMS, ERP, eCommerce or Order Management system. eFORMz can capture print output from any of these systems and format it.

Process Management
eFORMz extends existing business processes. eFORMz can eliminate any pre-printed form, merge data streams to create specialized documents, and automate the generation of forms and labels.

Product Features

Application Support

Dynamics AX, Dynamics NAV, Epicor, HighJump, IBM Sterling Commerce, Infor SX.e, Infor AX, JDA, Manhattan Associates, NetSuite, Oracle JDE, QAD, SAP & more

General Features

Global Variables

Text to XML pre-processor

Load Images- JPG, PNG, BMP, TIFF, GIF, PRN

PDF Forms Fill-In

Digital Signature Capture

MICR-Checks

Language Translation

Rules-Based Decision Making and Conditional Logic

Multi-byte Character Support
Japanese, Chinese, Korean, Eastern European, Arabic

Input

XML, ZPL, PDF, RTF, TXT, PCL

Printer Support

AFPDS, Datamax DPL, Epson ESC/POS, Intermec IPL, Intermec Fingerprint, PCL, PostScript, Printronix PGL, Sato SBPL, Toshiba TPCL, Zebra ZPL, Zebra EPL

Output

Collate/Uncollate Output

Duplex Print

Multiple Printer Trays

Print to Any Page Size
Custom, A5, A4, A3, Executive, Monarch, Letter, Com-10, Legal, DL, Ledger, B5, C5

Output as Email, PDF, HTML, XML, ZPL/EPL, Fax, Archive or Print

Integration

Read/Write to Database, SQL, Oracle, SAP-HANA, Progress, DB2, MYSQL & more

Integration With MS Sharepoint, FileNet, OpenText, DocLib

Third-Party Shipping Solution Integration, including Pacejet, Malvern, Proship, ShipStation, Worldship, FedEx Ship Manager, Agile, Connectship, ADSI, Kewell, MetaPack, Pitney Bowes, ShipWorks, Newgistics & more

Supported Barcodes & Fonts

1D, 2D & QR Barcode Creation
3 of 9, 3 of 9 EXT, 2 of 5, JAN 8, JAN 13, CODABAR, CODE 11, CODE 128, EAN 8, EAN 13, MSI, UPCA, UPCE, POSTNET, USER-DEFINED, INTELLIGENT MAIL. MaxiCode, Aztec, Data Matrix, PDF417, Quick Response (QR), RFID, GS1. **Special Fonts:** MICR13B, MICRCM7, OCRA, Secure Amount
