

**Opportunity to become a part of a fast growing, established software company!**

**Job Title – Software Engineer**

**Location – Minisoft HQ in Snohomish, Washington**

We seek an energetic, can-do person who understands happy customers are the key to our long-term success. You will be responsible for interacting and assisting existing customers and prospects in the use of our supply chain execution and ecommerce solutions. You will have opportunities to support our sales staff in pre-sales selling situations with actual product demonstrations and PowerPoint presentations at tradeshow, customer locations or via webinars. Responsibilities may also include creation of technical notes, support videos, and product FAQ's.

The applicant must have good writing skills, as the position will require written interactions with customers, reseller partners and prospects. A college degree in a technical discipline is a requirement. Computer Science or Engineering is preferred. Applicants must have a good working knowledge of Java or C as there will be opportunities for product development. Also, an understanding of XML, HTML, and/or SQL Server would be a plus. Work experience in the area of supply chain logistics or transportation management would be an even bigger PLUS!

But, we are NOT just looking for a "Techie". We are looking for a well-spoken individual with a customer-oriented personality that has some solid technical abilities.

Minisoft offers a very competitive compensation plan with paid vacation, company 401K and a generous healthcare plan that covers the employee and their families.

Founded in 1983, Minisoft is headquartered in beautiful Snohomish, Washington USA ([www.historicdowntownsnohomish.org](http://www.historicdowntownsnohomish.org)).
